

**DESIGNED FOR
AN ACTIVE LIFE**

iGo[®]2 Rucksack

Discover the ideal companion for an active life, where your oxygen therapy becomes a minor matter.

This lightweight backpack combines functionality and comfort. Designed specifically for the iGo[®]2, it ensures optimal air circulation, supporting high-quality oxygen production. Its snug-fitting compartment ensures a secure fit for the device, while the generous, comfortable back straps ensure wearing comfort.

Benefit from the freedom to enjoy your day carefree with this backpack.

+ Optimum air circulation

The backpack ensures optimum air circulation, which is extremely important for high-quality oxygen production.

+ Improved durability

Tear-resistant material ensures extra durability.

+ Optimum fit

The custom-fit top compartment secures the iGo[®]2 in place with the help of a strap.

+ Compact storage space

The lower compartment offers additional storage space for accessories.

+ Convenient oxygen access

Thanks to the reinforced eyelets, the air hose and charging cable can be easily attached
